## Professional Summary

Motivated and detail-oriented DevOps fresher with hands-on experience in Linux, AWS EC2, Git, GitHub, Jenkins, Docker, Nginx, and CI/CD pipelines. Skilled in building and deploying applications using Docker and AWS EC2, configuring Jenkins pipelines, and implementing GitHub webhook-based automated deployments. Strong interest in cloud computing, DevOps automation, and continuous learning, with proven problem-solving and communication skills.

## Education

**Bachelor of Commerce** 2023 – 2026
EMEA College of Arts & Science, Kondotty
University of Calicut

## Technical Skills

- **DevOps Tools:** Jenkins, Docker, Docker Hub, CI/CD, GitHub Webhooks
- **Cloud:** AWS, Amazon EC2
- **Version Control:** Git, GitHub
- **Operating System:** Linux
- **Web Server:** Nginx
- **Build Tool:** Maven
- **Scripting:** Bash/Shell Scripting
- **Networking:** TCP/IP, DNS, HTTP, SSH

## Projects

**My DevOps Portfolio Website**
github.com/fabismohammed/devops-portfolio.git
- Built and deployed a responsive portfolio website using a complete DevOps workflow.
- Configured Jenkins CI/CD pipeline to automate builds and deployments.
- Containerized the application with Docker and pushed images to Docker Hub.
- Deployed on AWS EC2 with Nginx for hosting.
- Integrated GitHub Webhooks for automated deployments.
- Gained practical experience in troubleshooting deployment, networking, and CI/CD issues.
